

## **Earth Is Our Home**

Earth Is Our Home is a celebration of the earth and the beauty around us. Paul G. Hill reminds us to slow down and appreciate what we can experience by going outside and the importance of taking care of our world. Take some time and think about what we can do to protect the beauty of this world with this recycling craft. Let's all do our part with recycling and upcycling when we can!

### **Supplies Needed**

Magazines

Scissors

Glue

Cardstock

### **Directions**

Have kids cut out colors from old magazines

Sort them by color

Glue them on paper to create a rainbow

**As you work on this craft, listen to Earth Is Our Home**

### **Conversation starters**

1. What can we do about challenges facing our planet?
  2. What's your favorite thing to do outside?
  3. Why is important to care about our earth?
4. What is something we can do to make the earth more beautiful?
  5. What's your favorite place on earth to visit?
